

A Guide to Understanding Openly's Standard Primary Policy

HO-5

Openly Standard

An HO-5 is more robust than an HO-3. Both dwelling and personal property are protected on an open perils basis, meaning that a loss is covered as long as it is not specifically excluded in the policy.

VS

HO-3

Industry Standard

An HO-3 is the most common policy. It is open peril for dwelling coverage, but covers personal property on a named perils basis, meaning a loss is only covered if specifically listed in the policy.

¹ Guaranteed Replacement Cost means that Openly will cover the full cost of replacing the home—even if the amount exceeds coverage limits (in the event the insured chooses to rebuild).*

² We cover other structures which are owned by you and located away from the "residence premises," if used by you in connection with the "residence premises."

³ Water seepage is the deterioration or rot of covered property caused by constant or repeated seepage from within plumbing, heating or cooling systems.

⁴ Blanket coverage provides protection for items commonly scheduled, such as jewelry or art, under one predetermined limit. This reduces the need to appraise and schedule each item.

*In GA, KS, MS, MO, NH, OH, SC, TN and WI, coverage amount is subject to Coverage A and conditions listed in the policy.

Coverages and other features vary by state, and are not available in all states.
